

Applications:

Quick pressure and temperature test at recommended test point during process, used in heating, ventilation and air conditioning industries.

Specifications:

■	Body	Brass
■	Diaphragm / Core	EPDM
■	Connection	1/4" NPT or 1/2" NPT
■	Process Temperature	350F (176C)
■	Maximum Operation Pressure	1,000 psi (6895 kPa)
